

Research Position

Project: NORTE-01-0145-FEDER-000012, Structured Programme on Bioengineering Therapies for Infectious Diseases and Tissue Regeneration

INEB/i3S is looking for **1 (one) PhD Researcher** (salary index to the Single Salary Table (TRU) level 33) in the scope of the Project “Structured Programme on Bioengineering Therapies for Infectious Diseases and Tissue Regeneration, NORTE-01-0145-FEDER-000012” in the framework of “Norte2020 - Programa Operacional Regional do Norte”, and with the following reference:

i3S.HOST_RL2_ID_01_2018

The candidate should hold a PhD in Biomedical Sciences, Bioengineering or related areas, and be highly motivated to develop his/her work within the research lines of the Microenvironments for Newtherapies Group (MiNT), particularly in the relationship between inflammation/immune responses and tissue regeneration, particularly for spine application.

The candidate must have experience in at least one of the following areas: inflammation/immunity and tissue regeneration, and desirably in biomaterials also.

The work will be developed in the framework of the research line “Modulation of inflammation for new therapies” in the Microenvironments for Newtherapies Group (MiNT) at i3S.INEB.

Jury: Mário Barbosa, Raquel Gonçalves and Susana Santos

Selection method: the candidates will be selected based on their CV evaluation and scientific project plan. If necessary the jury can call to interview the candidates with the best classifications. CV evaluation, scientific project plan and interview will account for 30%, 20% and 50% of the final classification, respectively. In the absence of interview CV will account for 60%, and scientific project plan for 40%, of final classification.

Contract is expected to start in May 2018.

The contract will be regulated by the Portuguese Labor Law and by the decree-law 57/2016 from August 29, alter by the Law 57/2017 July 19, and it will last for the time necessary to carry out the tasks foreseen, without going beyond the end of the project that is expected to be April 30, 2019.

The selected candidates will benefit from an excellent research environment and have access to state of the art facilities.

Applications are open from April 12th to 27th, 2018.

To apply for the Research Position candidates must submit online the following documents: a) Complete CV; b) Letter of Motivation; c) Short description a scientific project plan (1 page); d) Copy of the PhD degree certificate and e) Two reference letters, at:

http://portal.i3s.up.pt/gestaocandidaturasineb/index.php?codigo=i3S.HOST_RL2_ID_01_2018

The ranking list of candidates will be published at INEB website, and the selected candidate will be notified by email.

Candidates who formalize their applications in an improper way or fail to prove the requirements imposed by this tender are excluded from admission.
